

Our K-LOVE station is the only Christian station on the FM frequency in our area. The station touches so many people in our community. The fact that it plays up to date and current Christian songs gives our kids and teenagers a positive alternative to listen to. I would rather my teenager listen to songs of love and compassion rather than songs about killing, sex and drugs. People are overwhelmed with negative influences for all media types. If you take K-LOVE off the air you will be removing the only positive influence some people may have, Christian and non-Christian alike.
